Crypto Trading Service is Live!

From the desk of the CEO

August was a great month for MTI.

As MTI grows from strength to strength we are extremely proud of the amazing company we have built along with our excellent members. I was thrilled to see our stats for August and to realise that in this month alone we effected **34,734** individual withdrawals to the value of **5933,85 BTC**.

Team and management initiatives are creative, passionate and evidently effective. I am very happy about where we are headed. [...Read More](#)

Members' Bitcoin Growth August 2020

Grow Your Bitcoin

“During the last 2 months there has been a hive of activity regarding the trade of Bitcoin and the legalities pertaining to such. Our goal at MTI is to fully comply with relevant regulatory bodies which are applicable to the Bitcoin trading environment. At the moment, there is very little legislation governing the industry and there is no applicable regulatory body which specifically deals with the trade of Bitcoin, or Cryptocurrency for that matter. Our legal team, in association with our attorneys, aim to assist in the formation of any regulatory oversight body if need be, so that all industry stakeholders can participate in the creation of a harmonious Bitcoin trading environment. The ongoing monitoring of the legislative and regulatory landscape is essential to MTI’s business and we wait in anticipation to the next stage in this ever changing environment.” – MTI Legal Department

What’s new in the Back Office

August was a great month for back office additions that sets MTI apart in this industry. We have seen the incorporation of the limited LIVE trading view that will be updated bi-weekly to reflect real live trades and of course confirm our collective bitcoin balance. Security features have been put in place and we are seeing the update of social media corporate icons early in September! Our technical team is doing a sterling job!

From the Support Team...

The MTI Support team handled 13092 tickets from MTI members in August 2020, With an increase in membership comes an increase in member support queries. We are

developing a 12 week support training course to perfect our member support experience. On the 24th of August a staggering 1978 support tickets was created and our team resolved 1967 on the very same day! Support is doing an excellent job!

New Ranking System!

The MTI Referral Program Team have worked very hard to implement a fantastic new ranking system. This system went live on the 1st of September and has been met with much enthusiasm and excitement as members build towards their next rank.

There are no additional incentives related to the ranks but serve as a great measuring tool to grow your team!

Teamwork
divides the
task and
multiplies the
success

-P Sherman

Featured Leaders Gerald & Liz

Gerald and Liz are a dynamic couple that clearly love the CRYPTO world. They have built an impressive team and have had great success in MTI as members and leaders.

Their passion for serving the team is commendable and we eagerly await to see how they will grow even more in the future. [...Read More](#)

Gerald & Liz

It is all about MTI Values...

This month we feature another one of MTI's core values... **Integrity**. In an industry that is notorious for its bad reputation, MTI strives to operate with integrity by honouring transparency for members. We take our service to members seriously and that is the very heart of this company.

Bitcoin News

"The last month has been interesting in the Bitcoin Markets, we have seen Bitcoin break the \$12,000 mark only to drop back to the \$10,000 resistance point. While we could see a further decline in the short term, buying at these levels is likely to be a great long term trade!"

- Andrew Caw, Coin Buyers Club

What to expect in September 2020

Updated security and finalisation of corporate websites.

More proactive external press for MTI.
